

FITÉO FLEX - CAB CONFIGURATION

802436

PRODUCT DESCRIPTION

Cabin configuration.

- Ultra modular: adapts to any type of bathroom
- Quick to assemble: 50% time savings compared to a conventional solution with earthenware installation.
- Easy to install: one person is enough to install the Fitéo Flex solution.
- PRM compatible: accessory packs designed to ensure the comfort and safety of people with reduced mobility.
- Turnkey configurations: 224 ready-to-install kits, adapted to the size of the tray and the type of wall.
- Optimized logistics: kit delivered in a single pallet for simplified project management.
- Only 1 code per kit: simplified order taking for a smooth customer experience.

Available with a Fitéo tray in 800 or 900 mm widths and in different lengths: 1200, 1400, 1600 or 1800 mm. Panels and boxes (top or bottom) will allow you to cover the walls of your shower. These elements are reproachable. Choice of installing a left or right sliding wall for shower trays between 1400 and 1800 mm. And install a left or right swing door for 1400 and 1600 mm shower trays. A fixed wall is required in 800 or 900 mm to close the cab. An accessory pack can be associated with each configuration.
