TOILET EXTENSION

White

047580

PRODUCT DESCRIPTION

The WC riser, made of 90 mm white polyester, is attached in place of the toilet seat.

It has 4 mm invisible fasteners and a fixing centre distance of 150 to 170 mm, making this extension the ideal solution for comfortable toilet use. It facilitates sit-stand transfers by raising the seat by several centimeters.

The effort required to get back on their feet is therefore less important.

PRODUCT ADVANTAGES

EASY TO INSTALL

EASY TO CLEAN
