

TECHNICAL SHEET

L-SHAPED BAR Ø 32 MM

Polished Gloss

000180

PRODUCT DESCRIPTION

The L-bar in polished stainless steel with a diameter of 32 mm with 3 fixing points is mainly installed in a shower area. It allows you to keep your balance while standing or sitting, to get up and to transfer from one support to another.

304 stainless steel provides excellent corrosion resistance and durability even in the wettest conditions.

A pull-out shower holder is included.

The bases and fixing covers are made of polished stainless steel.

This bar exists in Right or Left.
