ROUND BASIN

Polished Gloss

063500

PRODUCT DESCRIPTION

The round basin is an ideal piece of equipment for collective spaces, combining design and functionality.

It stands out for its push-to-the-knee tap, which makes it easy to use and guarantees impeccable hygiene.

This stainless steel hand basin has a capacity of 5 litres and comes with a siphon and a hot-cold water mixer equipped with a non-return valve.

It is connected to the water network via a 15/21 connection.

Compliant with the NF Food Hygiene standard, it is suitable for catering establishments and communities.
