

ARCACHON WASHBASIN

White

052647

PRODUCT DESCRIPTION

The Arcachon washbasin is a piece of equipment adapted for people with reduced mobility (PRM) ideal for shared spaces, combining design and functionality. Its offset design offers better access to the basin while optimizing space. It is made of composite material, a mixture of marble powder and synthetic resin (meeting the NF EN 14688 standard). Its smooth, non-porous Gel-Coat coating ensures ease of cleaning and resistance to scratches and temperatures up to 95°. It is equipped with a front skirt and a backsplash to limit splashes on the wall. This washbasin is available with or without an overflow and can be delivered with a hole on the right or left for the taps or without a hole, depending on your preferences (to be defined when ordering). It is sold without taps or drain drains, giving you the freedom to choose the accessories that suit your needs and style.

PRODUCT ADVANTAGES

EASY TO CLEAN

PRM COMPLIANCE
