

BISCAROSSE WASHBASIN TOP

White

052688

PRODUCT DESCRIPTION

The BISCAROSSE washbasin top with its triangular shape is a piece of equipment adapted for people with reduced mobility (PRM) ideal for shared spaces and nursing home bathrooms. It is made of composite material, a mixture of marble powder and synthetic resin (meeting the NF EN 14688 standard). Its smooth, non-porous Gel-Coat coating ensures ease of cleaning and resistance to scratches and temperatures up to 95°. This washbasin is self-supporting: pre-drilled for direct wall fixing. Although compact, it offers a small, convenient space to dispose of your toiletries or other essentials. It is available in two versions: right-tipped or left-tipped to suit all configurations. It is available with or without overflow and can be delivered with a hole in the corner or on the tip side for the taps or without a hole, depending on your preferences (to be defined when ordering). It is sold without taps or drain drains, giving you the freedom to choose the accessories that suit your needs and style.

PRODUCT ADVANTAGES

EASY TO CLEAN

PRM COMPLIANCE
