

REPAIR KIT FOR WASHBASIN COUNTERTOP

PRODUCT DESCRIPTION

The repair kit composed of Gel-Coat, polishing paste, catalyst, sandpaper and a cloth, it offers a complete solution to restore a perfectly smooth and aesthetic washbasin.

Thanks to the repair Gel-Coat, it makes it possible to fill in defects and ensure a homogeneous finish, preserving the original appearance of the washbasin.

The polishing paste guarantees a shiny and uniform finish, thus restoring the shine and softness of the surface.

The included sandpaper makes it easy to prepare the substrate, ensuring optimal adhesion of the Gel-Coat for a long-lasting repair.

Easy to use, this kit allows for quick and efficient intervention, offering a practical solution to extend the life of your washbasin without the need for replacement.
